- Managing client interactions ,UAT support and DBA activities
- Developed the front-end DNI portal with help of Angular 6 and Angular material. Handling the development of project and lead a team.

- Also have performed a role of trainer to provide Basic Training to new comers in the Project

Project Name: <u>AT&T (CSI Automation System).</u>

Client : <u>AT&T.</u>

Duration: April 2017 to Sep 2017.
Role: Java Developer.
Environment: Core Java, Adapter plugins , XML , XSD , SVN repository , Postman , Jenkins, TDP.

Description: The CSI Adapter layer is responsible for discovering and managing access to the Service Provider layer (aka "downstream system"). This is achieved by providing a standard set of methods to access a Service Provider, and for isolating the Business Components (aka Business Workflow, Business Task, Service, Interface) from the specific intricacies of the services contract, e.g.: protocols, formats, tooling specifics, failure and service management. Work also involves creation of XSD's using JAXB. Configuration of Global variables to connect with different back-ends. The adapter plugin was used to create adapters in which we have to code using core java to connect with back-end systems to get the response based on Private XML requests. The response comes in different formats and those formats then converted to public XML for which code has to be written in Java and have to be passed to upper layers.

Roles & Responsibilities:
- Requirement and effort analyzing
- Bug fixing
- Maintenance and Support
- Development for enhancements
- Coordinating with testing teams

Project Name: <u>Run Factory- Development and Automation Support</u>
Client : <u>Dell EMC.</u>

Duration: April 2017 to June 2017.
Role: Java Developer.
Environment: Core Java, Apache Tomcat ,MS SQL, MS-Excel , Selenium.

Description: The project involved working with clients to understand their requirements for gathering data from different tools. After understanding the requirement of client, preparing the detailed scoping document specifying all the technical changes to be performed to meet the requirement The first automated report were used to keep the track of daily tasks , work schedule , shift management of resources which otherwise have to maintain manually. Another report which was generated which includes the customer data which was given to client according to the requirement document.

Roles & Responsibilities:
- Received knowledge transfer about the legacy system.
- Understand client requirements to enhance the existing system.
- Delivering on-time automation of the requirements.

PROFESSIONAL ACHIEVEMENTS :

✓ Successful completion of Chatbot Automation, received the **Pat on the back** award.
✓ Received **appreciation from leadership** for capturing new project from client in June 2018.
✓ Received **Rising Star Award** for giving exceptional performance to client in Dec 2020.

EDUCATIONAL QUALIFICATION :

Examination	Board or University	Institute	Month & Year	Percentage or CGPA
Bachelor of Engineering (Computer)	University Of Mumbai	Thadomal Shahani Engineering College.	May-2016	7.85
Diploma(IT)	Maharashtra State Board Of Technical Education(M.S.B.T.E)	S.H.M.Institute Of Technology (Ulhasnagar).	June-2013	81.44%
S.S.C	Maharashtra State Board Of Secondary and Higher Education	S.P.P. New Era High School.	March-2010	82.36%

PERSONAL MEMORANDA:

Gender   :   Male.
Marital Status   :   Single.
Date of Birth   :   26-01-1995.
Nationality   :   Indian.
Languages Known   :   English, Marathi, Hindi and Sindhi.
Address   :   Bk No. 336, Room No.8 , Behind Ganjanand Handlooms, near thakur studio , Ulhasnagar-421002
